February 2018

Do You Need to Add Users to Your Sage 100 or Sage CRM System?

Sage 100 & Sage CRM User Promotion

Do you need to add users to your Sage 100 or Sage CRM system? Steward Consulting is offering a promotion through March, 2018.

During the remainder of February, you can purchase 3 users and get 1 free.

During March, you can purchase 4 users and get 1 free.

(Business Care required on all users)

*Perpetual License only, not subscription

*Orders must be placed no later than 3p CST on March 30, 2018 to qualify

*Add-on orders only, new sales do not qualify

*This is an SCI promotion, not a Sage promotion - quotes will come from, and orders placed direct to, SCI

In This Issue...

- Sage 100 & Sage CRM User Promotion
- Sage 100 Perpetual to Sage 100c Subscription
- Paya - Formerly known as Sage Payment Solutions
- Scanco Acquires ACS Groups' Multi-Bin & Mfg Suite
- OKC Client Connection - Date Confirmed
- Are you on Sage 100 Version 2015 or lower? An upgrade is in your future!

Give us a call today for your free, no obligation quotation!

Sage 100 sage 100c

What is 100c?

Have you been hearing the latest buzz? Sage is aligning itself with other software companies in the industry by offering subscription-based payment methods.

You can move to 100c at any time, not just on your Annual Business Care renewal date.

Sage recently confirmed that pricing increases on current perpetual Business Care plans will be 20%, as compared to only a 10% increase for 100c.

Some things to note:

- Sage 100 is Sage 100c
- It is a change in payment method only
- There are no implications to any of your enhancements
- There is no effect on version retirement
- Product Updates and Upgrades are still handled the same
- Your software will still function the same
- Your processes and procedures will be the same

If you are interested in making this move, please reach out to Dana at dconner@stewardconsulting.com and she'll get you the necessary paperwork!

Note: Some restrictions apply

paya

Paya - Formerly Known as Sage Payment Solutions

OKC Client Connection Thursday, April 19, 2018

The date has been confirmed! The Client Connection will be held on Thursday, April 19th!

We will be hosting our OKC Client Connection Event back in Okla. City this year, at the same hotel as 2015. Join us at the DoubleTree Hilton - formerly known as Cambria Suites - located at **4410 SW 19th St, OKC.**

We are currently working on a special Vendor, they have been with us at previous events, and they have even more to offer our customers than before!

Watch your email or the March newsletter for further details!

Are you on Sage 100 Version 2015 or lower? If so, an Upgrade is in your future!

Sage will retire support on Version 2015 effective September 30, 2018! This means updates for Payroll and A/P (for 1099 management) ceased for V2015, effective December 31, 2017!

Sage Payment Solutions has announced a company rebrand to Paya (pronounced pie-ya). The new corporate name for the longtime trusted solutions provider signals a tectonic shift in the company's vision and strategy in the fintech market.

Paya, Inc., provides payment technologies and solutions to businesses of all sizes. Paya's highly adaptive platform enable business to get paid, make payment, and manage their money - simply and securely. With Paya's solutions, businesses can operate any way and anywhere their customers exist - on site, online, or on the go. Paya's comprehensive suite of solutions and services deliver easy-to-use payments technology for every stage of a business's growth.

Scanco Acquires ACS Groups' Multi-Bin & Manufacturing Suite

It started 3 years ago with **ONE** vision!

The acquisition of ACS Groups' Multi-bin and Manufacturing Software Suite solidifies Scanco Software's standing as the leading developer of mobile applications focused on the needs of manufacturers, distributors and supply chain organizations utilizing the Sage 100/100c Platforms.

We would like to share with you a few reasons for staying current on Sage 100:

- Take advantage of the latest features available - including the all new Sage 100 Payroll 2.0 - Now completely overhauled and updated in the new business framework. Many improvements that Payroll users have wanted for years are now available.
- Computers die, you hire more people...all this results in the need to buy new hardware. When you upgrade your computer servers and workstations, it is imperative that you be on a current version of Sage 100 to ensure compatibility. Sage actively supports the current and prior version of Sage 100. As is the case for virtually all commercial software, Sage does not go back several versions to ensure that every release works on Windows 8 or Windows 10 or future Windows versions.
- Plan to be on the most recent release and most recent product update. These are the versions receiving the product updates which may include new features such as the new Payroll mentioned above, bug fixes and software patches.
- All 1099 & W2 form local printing is achieved through Sage eFiling powered by Aatrix. If you've been using the Crystal Report based forms to print 1099 and/or W2s because they still align - be aware those methods are no longer being updated, and as soon as the government changes forms, your printing capability will cease working. (If you print tax forms, such as 941s, you need to be doing so through Aatrix, who is also going to require that you be on a current version)
- Users of Sage 100 Payroll should pay close attention and immediately adopt a policy of staying on the latest version and product update. This is needed for ACA reporting and any other government reporting changes.
- It is not wise to postpone upgrades until the end of the year. Work with SCI
